Credit Card on File

To help make the check-in process quicker and more convenient for our patients, Dermatology Associates of Coastal Carolina has now opted to use a credit card on file feature for individual patient accounts. This feature will allow a patient's credit card information to be stored in our secure financial database. By allowing our practice to store the information, receptionists can automatically collect copays at check in. For patients with high deductible plans, this feature will allow our practice to charge the card automatically when the insurance company has paid its portion.

By signing this form I am allowing **Dermatology Associates of Coastal Carolina** to charge my credit card for services received from this practice. I am aware that any charges my insurance company does not cover will become my financial responsibility and I am allowing this credit card on file to be used to cover these balances as well as any copayments collected at the time of my visit. I can always cancel the credit card on file feature by calling Dermatology Associates of Coastal Carolina at 252-633-4461 and telling them to disable to feature on my patient account.
